Our silver cases are all STERLING quality-925-1000 fine. IN EXPLANATION OF THE ABOVE, we desire to say that the old plan of charging for the gross weight of the case, as if it were all gold, worked well enough as long as the manufacturers were content with the amount of brass and steel actually required in its construction; but when the business was degraded into a contest as to who should get the most base metal into the least quantity of gold, and call it a GOLD case, then the time came when, in the interest of dealers in American watches, it became necessary to adopt a plan of their own business.—American Watch Company, Waltham, Mass. Irwin and Co., the agents, wish us to say that all business connected with the sailing of the sel must be transacted with them to-day. MR. GEORGE C. WILLIAMS has received his com mission as general manager and superintendent of all of the Hawaiian Commercial Company's planta-tions and property on the Island of Maui.

A BOLT occurred on Wednesday morning near the Hawaiian Hotel. A horse and cart rushed down Richard street and in turning the corner, both horse and cart rolled over several times without of the public. any damage to either. A MEMBER of the Planters' Association dropped

a roll of treasury notes on the floor on Tuesday, and was only aware of his loss when the money was returned to him with the query as to whether i belonged to him or not. THE steamer C. R. Bishop, which had been detained until Tuesday evening, took the following German immigrants:—For Kauai plantations, 113; for Kilauca, 122; for Lihue, 22; and for Koloa, 16.

The civil suit, Johnson vs. Tisdale, occupied the Supreme Court all day Tuesday, and was not finished. It was resumed on Wednesday. It is under-stood that the suit of Hinckley against Drs. Filch A was who recently borrowed a borse in town to go over to Waimanalo, sold the horse there, and

borrowed another, sold that in town, has been captured by the police at Waisnae, and was lodged in the station-house on Wednesday. THE Commercial Parlors were crowded to suffocation on Wednesday night by spectators of the match game between Saunders and Makaiwi. There was nevertheless, much less noise than on the last occasion At 9.10 p.m. the game stood Saunders 200, the native 238. Saunders then being in

FROM letters received by the Suez, we learn that Hon. J. M. Kapena and J. L. Kaulukon were in San Francisco, and are in good health, Judge Kaulukou is much impressed with the greatness of San Francisco and its bustling life. But, he adds, "he mea ole ia o Hawaii no ka oi," "with all this it is nothing to me. Hawaii is the best." A COMMITTEE of nine planters, of which Colonel

Z. Spaulding was chairman, were received by His Majesty according to appointment at 10 a.m. Thursday. The chairman read to His Majesty a memorial setting forth certain views and recommendations of the committee; in reply to which His Majesty said that the memorial would receive WE regret to learn that Mr. Custer, chief sugar-boiler at Spreckelville is lying dangerously ill at the Queen's Hospital; and that Mr. Stanley Forbes

The friends of both the young gentlemen will watch with solici-tude the reports of the progress of the fever which An abstract of the report of the secretary of the Planters' Labor and Supply Company will be found in this issue. The document is a businesslike his-tory of what has been done by the trustees during

the past six months, written in a tone which strikingly and most favorably contrasts with that of THERE was a considerable gathering at Mr. E. P. This (Wednesday) afternoon at half-past three o'clock, the first of these classes will be organised, and it would be well for all wishing to take advantage of Mr. Yarndley's instructions to be on hand at

the abovementioned time. BESIDES the former trustees of the Planters' Labor and Supply Company the following have been elected to fill the six new places on the Board -viz., Messrs. F. A. As a liniment it is popular and receives praise all round. Mr. Mannon states that he considers it a specific for rheumatism. He greatly pleased with its action. THE adjourned annual meeting of the Wailuku Sugar Company was held yesterday at the office of C. Brewer & Co., when the following officers for the ensuing year were elected: President, W. H. H. by which the Committee of Planters who waited on His Majesty on Thursday was appointed, was as follows :- Resolved :- " That a committee of nine be appointed to communicate to His Majesty the sentiments of this organisation in relation to matters concerning the interests of the industry we WILKERSON, the "King Barber," was on Thursday sentenced to a term of imprisonment for five years with hard labor, and ordered to pay a fine of \$25.

The Chief Justice, in passing sentence upon him, remarked that this was his third offense of similar character, that he was a dangerous man, and that he should not feel justified in passing a moderate sentence on him; he should therefore inflict-the longest term of imprisonment that the Legislature had seen fit to allow. Wide-mann; Vice-President, J. L. Richardson; Treasurer, A. Jaeger; Secretary and Auditor, C. O. Berger. The following were also elected directors for the ensuing year :- G. N. Wilcox, C. R. Bishop, and J. L. Richardson. The dividends for the past year have amounted to the sum of \$46,750. An express came to grief on Beretania street yes-

terday afternoon about half-past five o'clock. The driver was unable to control the horse, which bolted when another horse passed him; when the runaway animal arrived at the entrance to the Hotel grounds he turned sharp in and brought the off face wheel of the express against the gate post. The vehicle went no further, but the horse carried with him the harness and one of the shafts and made the best of his way to his stable through the Hotel yard and by Alakea and Hotel streets. The Superintendent of the Waterworks has cut off the water from some 25 premises, the occupants of which, persisted in using water illegally for irrigation. Mr. Reimen-

applied for a mandamus to compel the Department to supply him. He admitted the breaches of the

regulations, but his counsel Mr. S. B. Dole, con

tended that the Government were bound to supply him with all the water he might choose to use Judge McCully refused the mandamus, and gave it as his opinion that Mr. Wilson would not have done his duty if he had failed to cut off the supply. A BLIND man named Kamaile, died at 11 a.m. on Thuusday and his wife, Hana, a man named Kamalu (suspected of being her paramour) and a Chinaman named Lee Sing, son-in-law to Kamalu. are now in custody on the charge of conspiring to murder him. The man died in convulsions, and a cat and a dog belonging to the house died simi-larly, shortly before him, circumstances which raise the suspicion of strychnine. Hana's father and mother and some neighbors are said to have been present when the man died. Mr. Dayton held an inquest in the course of which it came out that on Saturday last, a policeman and Kamaile went to Lee Sing's house trying to catch

Hana there with Kamalu, but without success. Lee

Sing had the policeman arrested for breaking into his house, and Hana now accuses him of making improper advances to her and says this charge of murder is made from spite at her refusals. As old kamaaina, who for years has travelled the road from Honolulu to Waialua and Koolau, and has an intimate knowledge of the native character, says : " For twelve years I have gone to and from Honolulu, three and four times a month, and always would meet when coming into town two, three, maybe a dozen natives, more or less under the influence of liquor. I have never, that I remember, failed to see some drunkenness amongst them until the last visit to Honolulu, when, though I met more than one party of natives coming away from Honolulu, not one of them showed any signs of having been drinking-all were, as far as I could see, sober. And in the country the free liquor law has put a stop to illicit distilling, for the native can get all the liquor he wants openly. And those whose business it was to purchase liquor for the native find their occupation gone. The law works well,

The Wreck of the Nianara

A searching inquiry, occupying three days, ha been held to ascertain the cause of the grounding of the Niagara at the entrange to the harbor, and the reason of her making for this The court consisted of Major Wudstwess, II.B.M.'s Commissioner, Captain Mier, R.N., Captain Luce and Captain Marston.

It was found that the captain of the Ningam was quite justified in bearing up for Honolulu owing to the leaky state of his vessel, and that he was exonerated from any blame in connection with her grounding in this harbor, the pilot being in charge of the vessel at the time. The cause of her grounding was found to be the slipping of the hawser on board the Ningara, when in tow of the tug, although cumulative evidence was given from which it appeared that the hawser had been made secure. The pilot was ding, and, in the opinion of the court be acted in the best possible manner after she

touched. The court was of opinion that a more power-ful steam tug would easily have got the Niagara off the reef when she first touched, and before she was driven broadside on to it.

The court also drew attention to the state of the ship, pointing out her apparently unseapectus and a skeleten copy of a new work entitled worthy condition when leaving San Francisco.

Who pays the Taxes. Ma. EDITOR :- In one of the reports of planters, credit is claimed for a big proportion of Taxation, and no doubt that is so; but as usual, the biggest blowers are the smallest payers. Just as one of your correspondents showed up in the DAILY P. C. A. of the 14th instant, that Atkinson, editor of the Gazette, the fugleman of the "overburthened taxpayers," is exempt as a school teacher, for our road, school and poll taxes, and only last year three dollars and a half on two nags and a dog, and getting at the same time a salary of two thousand a year from the peoples taxes; so I harn that of the prominent planters, who are express about the disbursement of taxes, does not pay any taxes," though holding a large estate, being exempt by the offset of indebtedness he presents. NOTES. The Planters' Labor and Supply Company bets two sessions yesterday. In the morning some practical business was transacted. In the afternoon the meeting was resolved into consider the reply to the memorial presente His Majesty shortly after 4 p.m. The pre-

adjourned sine die. Hos. A. S. CLEGHORN and Mr. Com Grip arrived at Hilo on their recent trip of 10 a.m. last Thursday, and in consequence, of the state of things at Papaikon Plantation had a hard day's work, being incessantly engaged till 10 p.m., i which hour the Likelike waited for them, inste of starting at her proper hour of eight. As so the steamer arrived Sheriff Severance on board to inform the Commissioners that tifty Mr. Hitchcock's men were in jail for refusing to work, and this matter naturally occupied their immediate attention. A number of the men were sent for one by one, and talked to by Mr. Grip and Mr. Claghorn, Dr. Kraft acting as interpreter for the latter gentleman. The origin of the trouble is described by our Hilo correspondent in a letter which we publish to-day. Four of the men seem to have paid no attention to civil summons served on them for loss sustained by their no working properly, and to have thought the of judgment being given against them (by default) ould be followed by an arrest. The men parently wanted some excuse for refusing to work, Their main complaint is that they were given "jerked beef" to eat, an article of diet rather favorably looked upon by laborers of other nationalities, but one which they seem to think unfit for buman food. During the investigation of this case the Commissioners ascertained that the English and Norwegian counterparts of the contracts did not agree in regard to the women, the latter claiming for them board and lodging at the employer's expense, whether they worked or not, whilst the English version distinctly provides that they were only entitled to this when working. The mmissioners found that the men could not be persuaded to return to their work (with one exception). They then visited the plantation, inspe the quarters and the hospital, also the stores of food beef, salmon, rice, flour, beans, sugar, coffee, etc., which they found to be satisfactory. They had a ride back in the dark, a very disagreeable undertaking. They again visited the men in the jail, and finally got on board the steamer again, as already related, at 10 p.m.; 25 of the prisoners being also sent on board to be conveyed to Oahu Jail, the ommodation at Hilo being inadequate. On the occasion of His Majesty's trip around Oahu in the Waimanalo, upon his arrival at Wai-manalo Plantation he found a train of cars,

for Honolulu. When the vessel had rounded Coco Head, a feast was spread on deck, to which the party did ample justice. The whole trip was thoroughly enjoyed by His Majesty and all on We have to thank Mrs. Bennield for a copy of a ong-looked for work, the life of her mother Lucy G. Thurston. The major part of this book was prepared for publication by Mrs. Thurston her-self in 1872. It is very largely composed of ex-tracts from letters written to friends and near relatives, a method which often gives a living interest to its pages which a merely narrative auto-biography would probably have lacked. The long and earnest work done by Mrs. Thurston on these islands demands for this little book a more lengthy notice than we can give to it to-day, and we there fore postpone any further account of its contents

until a more careful perusal of them. Meanwhile,

we may mention that copies of the work are to be had at the store of Mr. A. L. Smith, in Fort street.
